

Applied Research Professional (Term)

Building Efficiency Technology Access Centre (BETAC)

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email.

This competition may be used to establish a 3 month eligibility list of qualified candidates for future vacancies.

DUTIES

Reporting to the Director, Building Efficiency Technology Access Centre (BETAC), RRC Polytech is seeking a Research Professional to support and grow industry driven applied research initiatives associated with BETAC. The Research Professional is responsible for leading the design, development, and implementation of applied research projects; conducting project management/administration functions; engaging in outreach/liaison activities with industry partners and others; participating in business development activities; and supporting the analysis and reporting of research results and the dissemination of results and technology transfer to industry partners.

REQUIRED QUALIFICATIONS

- Graduate degree in technology/engineering technology; an equivalent combination of relevant education and experience may be considered
- Recent and relevant work experience in the construction industry
- Strong knowledge of building/construction industry and relevant supply chain in the region
- Experience in leading applied research and experimental development activities in a post-secondary environment
- Ability to undertake multiple tasks with limited supervision
- Demonstrated ability to discover and cultivate new business opportunities
- Demonstrated ability to understand technical concepts and to successfully communicate them to customers
- Demonstrated leadership skills
- Demonstrated knowledge of laboratory and field testing methods of building envelopes
- Experience building a respectful workplace culture that promotes diversity, learning and continuous improvement

ASSETS

- Experience with the design and installation of instrumentation plans for various building science projects that require measurements for temperature, heat flux and moisture

CONDITIONS OF EMPLOYMENT

- Applicants must be legally entitled to work in Canada
- This position may be required to work evenings and/or weekends
- This position may be required to work overtime

RRC Polytech campuses are located on original lands of Anishinaabe, Cree, Ojji-Cree, Dakota, and Dene peoples, and on the homeland of the Métis Nation.
