

Research Chair

Research, Partnerships & Innovation

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email.

An eligibility list may be created for similar casual, part-time, full-time, and term positions

A preference hiring practice will be applied. Applicants who self-identify as members of the following equity-deserving group(s): Women, Indigenous Peoples, Persons with disabilities, Racialized Persons, Persons of the 2SLGBTQIA+ community will be given first consideration. Please self-identify in your application. First consideration will also be given to internal applicants.

DUTIES

The Research Chair position is a key role in Research Partnerships and Innovation to advance RRC Polytech's applied research enterprise in alignment with our Research Plan and the recently established Price Institute of Advanced Manufacturing and Mechatronics. The Research Chair will be responsible for building and implementing a program of research in Advanced Manufacturing and Mechatronics aligned with RRC Polytech's Strategic Plan and strategic Research Plan. The duties include forging research partnerships and collaborations, attracting and securing funding and investment for research program development, track and communicate metrics and impacts, hold financial accountability for research program funding and ensure post-award administration requirements are met including but, not limited to TAGFA, identify and nurture cross disciplinary collaborations with RRC Polytech Research Centers and programs, oversee and administer the financial, administrative and human resource requirements of the applied research area, lead knowledge mobilization and knowledge translation, disseminating research results through academic and technical reports, conference presentations, invited talks, publications, informing curricula, community and industry events and other internal and external venues, identify and acquire tools, materials infrastructure and services required to conduct research activities, increase student involvement and contribute to the development of Research Plan and strategic priorities as a member of the RPI leadership team.

REQUIRED QUALIFICATIONS

- PhD in relevant field. A combination of education and experience may be considered.
- Demonstrated research experience (scholarly and/or applied) in a field relevant to Advanced Manufacturing and Mechatronics
- Experience in research program management
- Experience in post-award administration, and reporting to funders
- Experience in research project management
- Experience creating and managing project budgets and projections
- Experience in the leadership of staff
- Knowledge of funding programs and requirements (Tricouncil, federal, provincial, other)
- Knowledge of research methodologies in a relevant area of specialization
- Demonstrated ability to attract and sustain significant partnerships and funding
- Demonstrated ability to establish effective working relationships with a diverse range of internal and external stakeholders
- Demonstrated skill in developing and writing successful funding proposals
- Excellent verbal and written communication
- Experience building a respectful workplace culture that promotes diversity, learning and continuous improvement

ASSETS

- Knowledge of research methodologies in Advanced Manufacturing and Mechatronics as well as required tools, technologies, and infrastructure to carry out the program of research
- Business and funds development skills in applied research context

CONDITIONS OF EMPLOYMENT

- Applicants must be legally entitled to work in Canada
- This position may be required to work evenings and/or weekends
- This position may be required to work overtime
- This position may be required to travel

RRC Polytech campuses are located on the lands of Anishinaabe, Ininiwak, Anishininew, Dakota, and Dené, and the National Homeland of the Red River Métis.
